The purpose of the Minnesota School Boards Association is to support, promote and enhance the work of public school boards and public education.

Proudly representing every locally-elected school board member in the State of Minnesota.
Prioritize spending to invest an additional $300 on the general education formula, per year, to meet State requirements and local expectations. This would include successfully preparing the 850,000 students in our schools to be Career and College Ready, closing the achievement gap and continual progress toward meeting World’s Best Workforce goals.

Provide school boards the flexibility to recruit and hire well-trained and qualified educators that best meet the unique needs of their students and schools.

Provide all students adequate and equitable access to learning technology to meet the demands of the 21st century workplace.

Implement the unanimous recommendations of the School Facilities Financing Work Group. This will empower board members to provide a safe and secure learning environment for all students.

Support teacher evaluation and Q Comp with the appropriate resources to ensure a high-quality teacher in every classroom.

Remove roadblocks that prevent equitable access to post-secondary opportunities in our high schools.

Protect students’ privacy and security of sensitive information in the digital learning environment.

Streamline the student testing and accountability system to align with MN standards and Career and College Ready outcomes.

Support “Border to Border” high speed internet service across MN.

Urge the Governor to appoint a School Trust Lands Director as required by law.
