

MSBA Playground Compliance Program

MINNESOTA SCHOOL

BOARDS ASSOCIATION

It's all about them

National Playground Compliance Group (NPCG) shares your desire to provide a safe, secure and engaging playground experience for children of all abilities. That's why the Minnesota School Boards Association teamed up with NPCG to create the MSBA Playground Compliance Program.

The Program provides the essential tools and resources to meet today's strict standards for playground safety and accessibility. With NPCG at your side throughout the development of your playground, you'll understand the critical steps necessary to create a safe and engaging playground for your children.

Visit NPCG at PlaygroundCompliance.com to get connected with your program manager, and get started on your new playground.

They're waiting.
